

PARDON IS THE REMEDY

I believe there are no limits to growth and human progress when men and women are free to follow their dreams.

We have learned that more is not necessarily better, that even a great human being has its recognized limits, and that we neither answer all questions nor solve all problems. So we will be ever vigilant and never vulnerable when the question is about our weaknesses. All of us have defects and no one is perfect in this life. We know it's necessary a lot of incarnations to achieve the perfection, and we will a pure idealist if we don't admit that forgiveness is absolutely necessary for our relationships.

At fourth dimension, probably the perfection just exist but at our dimension it's only a reflection as same as a image reflected at the mirror – belong to us do something as the mirror reflect a best image of perfection.

The pardon shouldn't be an act of heroism – the pardon should be a choice based in an intelligent faith.

Is wrong the concept that to forgive anyone you must have to forget the offense; that's because we can't delete from our memory the facts which stamped deeply our feelings at the past. Its oppositely a universal law of action and reaction, on the contrary, if we transform the essence of this feeling imagining that the offender probably did this or that against us for absolutely ignorance, and in addition when we don't have the desire of revenge, we achieve the comprehension of real forgiveness; this is the work that awaits us all, to be done with charity, and with prayer to Almighty God.

Jesus in His Gospel adverted us to pardon every offense, and all the eminent men at the wholly story at the mankind throughout the history have been taught almost the same. So, pardon is an old solution for turn our soul better, to be agreeable in the God's eyes!

The pardon conduces for a blessed calm; the calm avoid an innumerable diseases and illnesses, including heart strokes, high levels of blood pressure, arthritis rheumatoid, diabetes and there are serious vestiges that cancer is a consequence of lack of forgiveness! The illnesses are created by the sensations and disconnections of our feelings, *when we don't accept a fact or situation*; when we moan every time positioning ourselves we create an energetic force around our "aura" and if it persists for long time its prejudice our body, introducing a disturb into any chakras.

The pardon doesn't allow the disincarnated enemies fight us; the spirits who have similar feelings are automatically attracted for us, with the same feelings of revenge, selfishness, proud, jealousy etc, this is a chain that only will be braked up when we change the channel of thinking, in other words when stop the anger from the insulted, when they use compassion with the offender. We can see some obsessive processes during centuries just because the contenders don't realize they both are stationary in the angry and revenge. At the spirit meeting, particularly in obsession treatment, we can see the spirit speaking through the medium about their sadness and willfulness in don't forgiveness the offenses. They can describe in details why they believe prejudiced by the others. After a period of confrontation they should have a period of negotiation, so the spirits as the men need the same remedy; the pardon.

Dears, in light of these facts we are forced to conclude that in the Pharmacy of the Universe pardon is a medicine we all need use with each other.
